Approved For Release 2005/12/12/13/14/RPP/82-00457R		
CLASSIFICATION STORES	25)	X1A
CENTRAL INTELLIGENCE AGENCY	REPORT NO.	
information report	CD NO.	
COUNTRY USSR (Chkalov Oblast)	DATE DISTR. 7 N	ov. 19
SUBJECT Aircraft Plant near Chkalov	NO. OF PAGES 1	
RETURN TO CIA LIBRARY		
REPORT TO CITY ELEVANO	NO. OF ENCLS.	
	SUPPLEMENT TO	2
	OOT LEUTHY TO	
	and the second section of the s	
1. Location: On the northeastern odge of gree	at one lemon our less to	
l. Location: On the northeastern edge of CHK (Chkalov Oblast), east of the railroad lineern corner of the airfield.	ALOV (55°10°E/51°4 e to ORSK, in the	l'N) east-
(Chkalov Oblast), east of the railroad line	e to ORSK, in the	east-
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the	e to ORSK, in the e plant area about -story building wi ent, a two-story Manufacture of tory building with wood magazines, a	east- th a
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet square. b. Available buildings: Carpentry, a two-a glass roof, 135x265 feet. Lathe department building with a glass roof, 135x265 feet. fuselages and assembly department, a two-st glass roof; 135x265 feet. There were also sawmill, a boiler house, and office building	e to ORSK, in the e plant area about story building wi lanufacture of tory building with wood magazines, and line to ORSK.	east- th a
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet square. b. Available buildings: Carpentry, a two-a glass roof, 135x265 feet. Lathe department building with a glass roof, 135x265 feet. fuselages and assembly department, a two-siglass roof; 135x265 feet. There were also sawmill, a boiler house, and office building a spur track branching put from the railrost.	e to ORSK, in the e plant area about story building wi lanufacture of tory building with wood magazines, and line to ORSK.	east- th a
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet square. b. Available buildings: Carpentry, a two-a glass roof, 135x265 feet. Lathe department building with a glass roof, 135x265 feet. There were also sawmill, a boiler house, and office building a spur track branching put from the railrost. 3. Work force: About two thousand, including in each of the three shifts in 1946.	e to ORSK, in the e plant area about story building wi lanufacture of tory building with wood magazines, and line to ORSK.	east- th a
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet square. b. Available buildings: Carpentry, a two-a glass roof, 135x265 feet. Lathe department building with a glass roof, 155x265 feet. fuselages and assembly department, a two-siglass roof; 135x265 feet. There were also sawmill, a boiler house, and office building a spur track branching put from the railrost of the two thousand, including in each of the three shifts in 1946. 4. Production:	e to ORSK, in the e plant area about -story building wi ent, a two-story Lanufacture of tory building with wood magazines, a ngs. The plant ha ad line to ORSK. 45 percent women,	east-th a
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet scuare. b. Available buildings: Carpentry, a two-a glass roof, 135x265 feet. Lathe department building with a glass roof, 155x265 feet. fuselages and assembly department, a two-siglass roof; 135x265 feet. There were also sawmill, a boiler house, and office building a spur track branching put from the railrost. 3. Work force: About two thousand, including in each of the three shifts in 1946. 4. Production: a. Twin-engine aircraft during the war b. Three types of powered aircraft in 1946	e to ORSK, in the e plant area about -story building will ent, a two-story Lanufacture of tory building with wood magazines, a ngs. The plant ha ad line to ORSK. 45 percent women, 6. Two single-sea of these types). They were towed	th a d
(Chkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet scuare. b. Available buildings: Carpentry, a two-a glass roof, 135x265 feet. Lathe department building with a glass roof, 135x265 feet. fuselages and assembly department, a two-siglass roof; 135x265 feet. There were also sawnill, a boiler house, and office building a spur track branching put from the railrost of the three shifts in 1946. 3. Work force: About two thousand, including in each of the three shifts in 1946. 4. Production: a. Twin-engine aircraft during the war b. Three types of powered aircraft in 1946 planes were said to be built per day (one concludes the conclusion of the conclusion of the conclusion of the conclusion of the conclusion.	e to ORSK, in the e plant area about -story building will ent, a two-story Lanufacture of tory building with wood magazines, a ngs. The plant ha ad line to ORSK. 45 percent women, 6. Two single-sea of these types). They were towed	east-th a d
conkalov Oblast), east of the railroad line ern corner of the airfield. 2. a. Plant installations: Dimensions of the 1,000 feet scuare. b.
